

### INDEX

1. Adductor tubercle (1,3)
2. Anterior intercondylar area (3)
3. Apex of head of fibula (4)
4. Body (shaft) of femur (Corpus femoris) (1)
5. Calcaneal tuberosity (5)
6. Calcaneus (4,5,6)
7. Cuboid (4,6)
8. Distal phalanx (5,6)
9. Facies poplitea (2)
10. Fibular notch (4)
11. Fossa intercondylaris (2)
12. Fovea for the ligament of the head (1)
13. Gluteal tuberosity (2)
14. Greater trochanter (Trochanter major) (1,2)
15. Head of femur (Caput femoris) (1,2)
16. Head of fibula (4)
17. Head of talus
18. Intercondylar eminence (3)
19. Intermediate cuneiform (4)
20. Intertrochanteric crest (Crista intertrochantERICA) (2)
21. Intertrochanteric line
22. Lateral cuneiform (4,6)
23. Lateral condyle of femur/Lateral femoral condyle (2,3,10,11)
24. Lateral condyle of tibia (3,10)
25. Lateral epicondyle (1,3)
26. Lateral intercondylar tubercle (3)
27. Lateral lip of linea aspera (2)
28. Lateral malleolus (12)
29. Lateral supracondylar line (2)
30. Lateral tubercle (5)
31. Lesser trochanter (Trochanter minor) (1,2)
32. Medial lip of linea aspera (2)
33. Medial condyle of femur/Medial femoral condyle (2,3,10,11)
34. Medial condyle of tibia (3,10)
35. Medial cuneiform (4,5)
36. Medial epicondyle (1,3)
37. Medial intercondylar tubercle (3)
38. Medial malleolus (4,5)
39. Medial supracondylar line (2)

## BONES OF THE LOWER LIMB- LAB INDEX

---

40. Medial tubercle (5)
41. Metatarsal (4,5,6)
42. Middle phalanx (5,6)
43. Navicular (4,5,6)
44. Neck of femur (Collum femoris) (1,2)
45. Neck of fibula (4)
46. Neck of talus
47. Patella(1,3,4)
48. Patellar surface (1,3)
49. Pectineal line (2)
50. Posterior intercondylar area (3)
51. Proximal phalanx (5,6)
52. Sustentaculum tali (5)
53. Talus (4,5,6)
54. Tibial tuberosity (4)
55. Trochanteric fossa (Fossa trochanterica) (2)
56. Trochlea of talus (5)
57. Posterior articular calcaneal surface
58. Middle articular calcaneal surface
59. Anterior articular calcaneal surface
60. Facies articularis navicularis
61. Posterior articular talar surface
62. Middle articular talar surface
63. Anterior articular talar surface
64. Talar sulcus
65. Calcaneal sulcus
66. Lateral malleolar articular surface [Facies malleolaris lateralis]
67. Medial malleolar articular surface [Facies malleolaris medialis] –in the shape of comma-
68. Lateral talar process
69. Fibular trochlea
70. Navicular tuberosity
71. Tuberosity of cuboid
72. Tuberosity of the 5th metatarsal (Styloid process of the 5th metatarsal)
73. Sesamoid bone of the 1st metatarsal
